

Miguel Aguilera Sánchez

My name is Miguel Aguilera and I am a Frontend Developer with ReactJS and Backend with NodeJS. Web developer for 2 years, with extensive knowledge and years of experience, working in web technologies and UI / UX design, delivering quality work. Currently working as a frontend developer for Soft Shimpony.

Experiencia

enero de 2020 - diciembre de 2020 (1 año)

Desarrollador Web • Programador Fronted • Ender Emprendimiento

Ender Emprendimiento

Landing Page that provides information on entrepreneurship topics as well as some courses and articles.

Febrero de 2021 - diciembre de 2021 (11 meses)

Frontend and Backend Developer • ISIA

Soft Simponhy

I made the design of several pages in the vector graphics editor and a prototyping tool Figma to present them and then realize them with the React framework. As well as the realization of a Backend in NodeJS for this same page where we made the calls to our MySQL database.
